BSRM/SRR London 2006 – Provisional Programme

Wednesday 5 July 2006

09.30	Registration, coffee and poster set-up		
10.00	One hour - 'How to do it' practical workshops – 1st session:		
	Questionnaire Design – <i>Rory O'Connor & Chris Roy</i>	How to write a paper – <i>Derick Wade</i>	Goal attainment scaling – <i>Lynne Turner-Stokes</i>
11.00	Coffee		
11.30	One hour - 'How to do it' practical workshops – 2nd session:		
	Questionnaire Design – <i>Rory O'Connor & Chris Roy</i>	How to write a paper – <i>Derick Wade</i>	Goal attainment scaling – <i>Lynne Turner-Stokes</i>
12.30	Lunch & Poster viewing		
	Seminar 1		
	The interface between palliative care and rehabilitation in long term conditions		
13.30	Rehabilitation in palliative care. How do approaches differ from standard rehabilitation in non palliative care settings? - <i>Adrian Tookman</i>		
14.00	Providing palliative care in progressive neurological conditions (eg MS) - <i>Eli Silber and Rachel Burman</i>		
14.30	Tea, exhibition and poster viewing		
15.00	Towards the end of life in acquired brain injury - <i>Keith Andrews</i>		
15.30	Services currently available for rehabilitation/palliative care in long term neurological conditions - <i>Nigel Sykes</i>		
16.00	Discussion		
16.30	BSRM Phillips Nichols prize lecture: 'Limited responsiveness of the Barthel Index and FIM in Neurological Rehab - a true or false effect' - <i>Rory O'Connor</i>		
17.00	BSRM Trainees' Meeting (SpR's only)		

Thursday 6 July 2006

09.00	Registration and coffee		
	Seminar 2		
	Empowering people within a rehabilitation service		
09.30	Do it yourself? Transferring control from professionals to service users - <i>Chris Ward</i>		
10.00	Goal setting in clinical practice – can it be used as a measure of outcome? - <i>Jane Johnson/ Steve Ashford</i>		
10.30	Coffee		
11.00	A comparison of GAS vs Standardised measures - <i>Jane Johnson/Steve Ashford</i>		
	Free research papers:		
11.30	Item response characteristics for the Cognitive Symptoms Subscale of the European Brain Injury Questionnaire (EBIQ) - <i>Andrew Bateman</i>		
11.45	The evaluation of a transitional community stroke scheme - <i>R Harrington</i>		
12.00	Talking about reasons for treatment in neurorehabilitation: Explaining, involving, and persuading - <i>Ruth Parry</i>		
12.15	How do clinicians use outcome measures in neurorehabilitation? A qualitative study - <i>Joanne Greenhalgh</i>		
12.30	Lunch & poster viewing		

Thursday 6 July Cont/d

	Seminar 3 Research issues in progressive conditions		
13.30	Evaluating effectiveness of intervention in progressive conditions. Measuring effectiveness against a background of deterioration - <i>Irene Higginson</i>		
13.55	Quality of life - What does it mean and how can we measure it – Do Qualys work in progressive disease? Are there alternatives? - <i>Alan Tennant</i>		
14.20	Response shift – implications for research in long-term conditions - <i>Peter Fayers</i>		
14.45	Straightening curvy data - <i>Jeremy Hobart</i>		
15.10	Discussion		
15.30	Tea		
16.00	Launch of 'Undergraduate Medical Education in Rehabilitation Medicine' - <i>Bipin Bhakta</i>		
16.15	Poster Presentations – to be announced on the day	16.20	SRR Council Meeting
17.00	CLOSE		
19.30	Conference Dinner – <i>Sponsored by the Wellington Hospital Rehabilitation Unit</i>		

Friday 7 July 2006

08.30	Registration and coffee		
	Seminar 4 Upper limb rehabilitation		BSRM standards consensus meeting (SRR-attending clinicians also welcome)
09.00	The control of upper limb movements in health and disease - <i>Richard Carson</i>	09.00	BSRM Standards: Background – <i>Lynne Turner-Stokes & Bev Hopcutt</i>
09.40	A critical appraisal of home based exercise for people with stroke - <i>Paulette van Vliet</i>	09.30	BSRM standards breakout groups
10.20	Coffee		
	Free Research Papers:	10.40	BSRM Standards Consensus - <i>Vera Neumann & Lynne Turner-Stokes</i>
10.40	A randomised controlled trial of a home-based exercise programmer to reduce fall frequency among people with Parkinson's disease (PD) - <i>Ann Ashburn</i>		
10.55	Does motor recovery after stroke depend on intact attention? - <i>D Hyndman</i>		
11.10	Validation of the Memory and Behaviour Problems Checklist for use in Acquired Brain Injury - <i>D Jackson</i>		
	Invited speaker:		
11.30	How to deal with missing information in large data sets - <i>Julie Pallant</i>		
	Plenary Session:		
12.00	Neuropsychological assessment and management of people in states of reduced consciousness – <i>Barbara Wilson</i>		

Cont/d

Friday 7 July Cont/d

13.00	Lunch, exhibition and poster viewing				
14.00	SRR Business		Joint BSRM VRSIG & COT OTWPP Session: Developing multiprofessional competencies in vocational rehabilitation		SIG for Amputee Medicine Session
	Free research papers:	14.00	Competences for the medical student in vocational rehabilitation: fantastical or functional? - <i>Diane Playford</i>	14.00- 15.00	MAS AK Sockets - <i>Jamie Gillespie</i>
14.30	Evaluation of the Daisy Chain: a community based service for people with dementia - <i>L Walker</i>	14.15	Title to be confirmed - <i>Auldeen Alsop</i>		
14.45	The rapid resolution of depressive and anxiety symptoms after amputation - <i>Rajiv Singh</i>	14.35	Influencing Today's and Tomorrow's Doctors in the Importance of Occupational Health - <i>Nerys Williams DWP</i>		
15.00	Users' and Orthotists' Priorities for Use of Ankle Foot Orthoses (AFOs) - <i>M Phillips</i>	15.00	Break out groups: To identify potential framework for developing core competencies and key areas of competence		
15.15	Can nurses help identify patients with depression following stroke? A pilot study using two methods of detection - <i>L Lightbody</i>	15.30- 16.00	Feedback		
15.30	Gender differences in prosthetic limb-fitting - <i>R Singh</i>				
15.45	A pilot randomised controlled trial of a home based exercise programme aimed at improving endurance and function in adults with neuromuscular disorders (NMD) - <i>C Elsworth</i>				
16.00	Co-activation and muscle weakness in neurological conditions - <i>ME Busse</i>				
16.15	Acquired brain injury: Impact on carers - <i>D Jackson</i>				
16.30	CLOSE
